Town Governance

Hello, Andover is a small city. We need to behave like one. It's 2021 and the small town, New England way of town meeting, while entertaining at times, is a joke. I've been to a bunch of town meetings over the years and have a hard time finding other like, late 30 parents of children in town next to me in attendance. Not only can only one of us attend out of my family for child care (and on site care was not an option for young kids when it goes until (1030- 11pm!) but extremely inconvenient as a full time working mom. There needs to be a better option of select people, or virtual voting. There is a lot of interest in this town and feel like if the process were improved the participation would improve as well. Thank you.
