Andover has outgrown the Town Meeting

It is well overdue to transition away from the legacy installed Town Meeting and move to an elected Mayor process. Working families cannot make time to attend these massive town meetings anymore. Additionally, 3 years ago a town meeting we attended lasted 3 days and extended over a weekend to the following Monday. This is not sustainable and excludes many from participating on what happens in the town we pay very high taxes in. Many attending town meetings these days are ones that have specific interests that fall outside the general public's needs. Andover has outgrown the Town Meeting.
