

How Can I Save Energy?

Mass Save offers a no-cost Home Energy Assessment from a Mass Save Specialist or a Home Performance Contractor. By completing the Home Energy Assessment you could be able to take advantage of [incentives and rebates](#) offered by Mass Save. You will have many opportunities to save money on heating and cooling costs by completing the Home Energy Assessment as well as an opportunity to apply for the HEAT Loan Program. To Find out more about Mass Save and ways in which you can save energy through daily best practices visit the [Mass Save For Your Home webpage](#).

Learn more about the [Home Energy Assessment](#).

The Environmental Protection Agency and the Department of Energy have provided energy efficiency standards within your home through the Energy Star program. Equipping your home with Energy Star certified appliances, windows and doors can improve the quality of life in your home as well as help you save on energy costs.
